Educational Special Needs Services operates as a non-profit corporation. We are aware that parents with children who have special academic needs can face overwhelming financial burdens and that most services are rarely covered by any type of insurance. Our desire is that all children will receive the guidance and support that they need in order to be successful in school. We desire that no child be deprived of services due to financial need, thus if paying fees on this scale is a problem, parents/guardians can apply for additional scholarship assistance (depending on available funds). Additionally, families receiving services for more than two children (concurrently) may receive additional aid.
