Scholarship Request (Revised 1/2023)

Enhancing Education is supported by private tax-deductible donations and client fees. All fees are on a sliding scale (depending on available scholarship funds) based on your family's yearly adjusted gross income and the specific charge for the service provided. Scholarships will be granted for a one-year term; however, families may re-apply annually.

Enhancing Education operates as a nonprofit corporation. We are aware that parents with children who have special academic needs can face overwhelming financial burdens and that most services are rarely covered by any type of insurance. Our desire is that all children will receive the guidance and support that they need to be successful in school. We desire that no child be deprived of services due to financial need, thus parents/guardians may apply for additional scholarship assistance (depending on available funds). Extenuating Circumstances Scholarships are limited to 25% for 3 months (families may re-apply) with an annual cap of \$500.00 per family. Additionally, families receiving services for more than two children (concurrently) may receive additional aid.

Based on my/our yearly adjusted gross income I/we request _____% scholarship assistance as noted on the sliding scale (your information must be updated annually). Due to extenuating circumstances, I/we request additional scholarship assistance in the amount of _____% (see restrictions above). Please provide a brief description of your extenuating circumstance(s) below.

I/we, the undersigned, verify that the information given on this Scholarship Request is accurate.
